Due to more advantageous local operating conditions at [REDACTED]
[REDACTED], the United States Government's [REDACTED] station, which
has been located at [REDACTED] since October of 1941, to
[REDACTED] immediately upon completion of a new station now under
construction at that location. The new station is expected to
become operative sometime during March or April of this year.
The station will employ approximately fifty persons of which
number nearly all will be transferred from the present [REDACTED]
station.
